## Northwest Primary

Dear Parents,

Welcome to First Grade! This will be an exciting and important year for you and your child! Working as a team - child, parent and teacher, we will strive to make it a successful year!

Whenever possible this summer, visit the library and *read* with your child! These experiences initiate interest in reading, provide children with good models of reading and help children begin the development of beginning reading skills.

To ensure a successful beginning of the year, help your child maintain kindergarten skills such as: writing his/her name (first and last), identifying and writing colors, letters and numbers. At the beginning of the year, our math program requires students to count 0-100 and locate numbers on a number grid/120s Chart. We will begin with basic addition and subtraction. We believe reading is a foundational skill and we read to your child every day. We hope you, as parents, will read to them daily as well.
